

XXII GEM CONGRESS

MEMBRANES: STRUCTURE, DYNAMICS AND FUNCTION

14-17 MARCH 2023 | AUTRANS, FRANCE

The French Membrane Group (GEM) congress will focus on the **structure, dynamics and function** of membranes. It will be held for the first

Topics: time in the French Alps and will be locally organised by researchers from different institutes in Grenoble, where several well-known European and national research facilities are located.

Nanomedecine

Glycobiology

Structural Biology

Computational Methods

Host-pathogen Interactions

Interaction Lipids/Polymers/Membrane Proteins

Molecular interactions at the membrane surface

CONFIRMED SPEAKERS

Bart Hoogenboom, UK

Isabelle Marcotte, CA

Hughes Nury, FR

Chantal Pichon, FR

Birgit Schiott, DK

Emma Sparr, SE

Hanna Wacklin-Knecht, SE

Hans Wandall, DK

Deadline for abstracts: **4th December 2022**

Deadline for final registration: **31st January 2023**

LOCAL ORGANISERS: Bruno Demé, Franck Fieschi, Giovanna Fragneto, Juliette Jouhet, Anne Martel, Christophe Moreau
CONTACT: Emily Ryan (secretariat_ill@ill.fr)
